

SHUBHAM JADHAV

+91 8999207098 | shubhamajadhav200@gmail.com | LinkedIn | GitHub | Portfolio | LeetCode

Summary

Software Engineer with strong foundations in Data Structures and Algorithms (C++) and experience building full-stack applications using MERN technologies. Developed production-ready systems with REST APIs, AI workflows, and analytics dashboards. National-Level Hackathon Winner focused on solving problems and delivering software solutions.

Education

Vishwakarma Institute of Information Technology, Pune	2023 – 2027
<i>Bachelor of Technology in Computer Science Engineering (Artificial Intelligence)</i>	CGPA - 9.09
Entrance Exams	2021 – 2023
CET /JEE	97.74 /87.06
Sushma Patil Vidyalaya Kamothe, Navi Mumbai	2020 – 2021
<i>Class 10</i>	Percentage - 96.00% (1st Rank)
Loknete Subrao Kadam Jr. College, Satara	2022 – 2023
<i>Class 12</i>	Percentage - 80.67 (2nd Rank)

Industry Project Experience

Software Engineer Intern <i>Fluid Controls Pvt. Ltd., Pune</i>	Nov 2025 – May 2026 — View Offer Letter
- Developed a centralized MERN Stack platform used by 500+ users to manage sales enquiries, NPD workflows, KPI dashboards, and departmental records, replacing Excel-based processes and reducing manual dependency. - Implemented secure Role-Based Access Control (RBAC) using JWT for 5+ organizational roles, while building scalable frontend and backend modules with React.js, Node.js, Express.js, and MongoDB. - Developed Excel import/export automation with data validation, relational mapping, and bulk processing, reducing manual effort by 80% and improving reporting accuracy by 50%. - Built KPI dashboards with Power BI-style charts and drill-down analytics, enabling real-time reporting, workflow tracking, performance monitoring, and faster data-driven decision-making across departments.	

Projects

Smart Financial Advisor Platform <i>React.js, Node.js, Socket.io, Tailwind CSS, MongoDB, JWT, LLM, RAG</i>	Live Demo
- Built an AI-powered financial management platform integrating 10+ features including voice navigation, OCR document processing, expense tracking, financial calculators, community forums, government schemes discovery, and gamified learning modules to enhance financial literacy. - Developed secure authentication using Google OAuth 2.0 and JWT, engineered RESTful APIs for transaction management, and integrated real-time communication with Socket.io and MongoDB for scalable full-stack operations. - Architected intelligent financial advisory workflows using LLM and RAG, featuring an AI chatbot, automated receipt scanning with OCR extraction, personalized financial guidance, and contextual query resolution.	
AI Powered Placement Preparation Platform <i>React.js, Node.js, Socket.io, Tailwind CSS, MongoDB, JWT, LLM, RAG</i>	2025
- Developed an AI-powered placement preparation platform with real-time mock interviews for Technical, HR, and Behavioral rounds, using LLM and RAG to generate contextual questions and provide instant feedback. - Built an AI Career Roadmap Generator and Career Guidance Chatbot that creates personalized learning paths, interview strategies, and skill-development recommendations based on user goals and target roles. - Developed an AI Resume Analyzer leveraging LLMs for resume parsing, ATS score calculation, keyword gap analysis, skill extraction, and personalized optimization suggestions to enhance candidate shortlisting potential.	

Achievements & Certifications

1st Place Winner – Kurukshetra National Hackathon Among 300+ teams, Maharashtra — View Achievement Runner-Up – Webverse Hackathon, VIT Pune Among 250+ teams, VIT Pune — View Achievement Top 5 Finalist – InnoHack 2.0 Among 300+ teams, VIT Pune — View Achievement	- Solved 300+ LeetCode Problems using C++ — LeetCode Profile IBM Full Stack Developer Certificate – Coursera — View Certificate IEEE Publication – Smart AgriTech with Machine Learning IEEE ICEI 2026, PICT Pune — View Publication
--	---

Technical Skills

Languages: C++, Python, HTML, CSS, JavaScript, SQL

Technologies: React.js, Express.js, Node.js, MySQL, MongoDB, Postman, Git, GitHub, Docker, Render, Vercel

Other Skills: Canva, Bootstrap, Material UI, WebRTC, Stripe, JWT, Socket.io, REST APIs, WebSockets

Coursework: Data Structures and Algorithms, Operating Systems, DBMS, Computer Networks, OOPs

Soft Skills: Time Management, Communication, Problem solving, Leadership
